

PNEUMATIC LEVER TYPE TUBE CUTTERS

Introducing our new Lever Type Tube Cutters. These design of these tools are such that they cut quickly and effortlessly ferrous and non-ferrous tubes. A constant feed rate of the cutting bit is achieved by combining high torque motors with our lever assist unit. It results in a higher productivity and extended life of the cutter.

Our new product line also offer machines for tube facing and seal weld removal tools.

Features:

- All of the push cutters from 1/2" - 1" adapt to one tool body.
- Fast tool change from one diameter tool to another (3 - 4 minutes.)
- Tool bit is easily changed without disassembling the tool - 1 - 2 minutes.
- Lightweight and durable - 3/4" tool weights only 10,5 lbs (4.7 kg) Pneumatic and 8,82 lbs (4 kg) Electric.

Technical Details:

Model No.		PLTC - 400	PLTC - 500	PLTC - 1250
Free Speed	RPM	400	600	1250
	Maximum Torque			
	Nm	36,00	21,81	12,2
	in.Lbs	318	193	108
Weight	Kg	4,76	4,76	4,76
	Lbs	10,5	10,5	10,5
Length	mm	311	311	311
	inch	12-1/4	12-1/4	12-1/4
Air Consumption	l/min	1700	1700	1700
	cfm	60	60	60
Tube Material		Carbon Steel	Brass	Copper
